NDF Challenges Van Grack To Debate

The **Rockville Gazette** as part of its campaign of lies against the National Democratic Front has enlisted the aid of a petty politician named Steven Van Grack who is the mayor of Rockville, Maryland, one of the towns in which the NDF is active. According to the **Rockville Gazette,** which has studiously avoided quoting any of the NDF's literature, Mayor Van Grack said that the NDF is a "hate group" which distributes "hate pamphlets". If Van Grack said these things then he lies like a newspaper.

In fact, it is Van Grack and his ilk that are perpetrating genocide by forcing the races to mix with one another against their will. The capitalist plutocrats, who rule this country for their own benefit, have established a tyranny of laws to enforce their multiracial policy which is designed to strip all of the races of their racial and cultural identity so that there is no one left to oppose the corrupt doctrines of individualism and self-interest upon which they thrive. They are afraid of the rise of White Nationalism and Black Nationalism because they know that nationalists will not tolerate their decadent self-seeking and exploitation of cheap labor. They know that only nationalists truly care for their people, and that only nationalism will end the importation of millions of immigrant wage slaves while millions of our own go jobless and live in poverty. The capitalist scam whereby the rich shape the law for their own benefit ends the day the NDF comes to power, and that is what the ruling elites and the politicians who serve them fear above all things.

Some of the many articles recently written about the NDF in Maryland.

Van Grack is one of the System's stooges who serves himself by serving the wealthy and the powerful special interests. **We hereby challenge this politician to meet a real political leader in open debate to air these issues before the people.** Gary Gallo, a Director of the NDF, will meet Van Grack at any time and at any place in open debate so that the people can judge for themselves who is telling the truth and who is lying. **MMc**

NDF Sparks Media Furor In Washington

The Washington Unit of the National Democratic Front has been very actively distributing leaflets and newspapers in the D.C. area over the last year. In August the local media finally noticed - all at once. There were stories about the NDF on the ABC television affiliate for Washington D.C. (Channel 7) and on the NBC affiliate (Channel 4). The **Rockville Gazette**, **The Montgomery Journal**, and the **Chronicle Express** have also run articles recently on the NDF. We have been invited to appear on a local radio talk show and even the **Washington Post** has requested an interview.

The coverage has been mixed. The TV stations and the **Rockville Gazette** stuck to the Systems's program with the usual lies about us being a hate group, implying that we were connected with a recent swastika burning in Rockville. (Predictably, a Jew has just confessed to the swastika burning incident and is serving 80 hours of community service.) But the **Montgomery Journal** quoted a good bit from our program and leaflets, and the **Chronicle Express** used a number of accurate quotes from its interview with Gary Gallo. Despite some inaccuracies in the **Journal** piece both of these articles must be considered favorable publicity as they honestly stated our real message.

Surprisingly, the **Montgomery Journal** piece actually stated that the NDF "does not denigrate any race", and further mentioned that "none of their activities have been classified as hate and violence incidents" according to Rockville police. This sort of honesty is rare in the media. Nevertheless, there were several inaccuracies which marred the article and we sent the following letter to the **Journal** in reply:

Dear Editor:

I would like to correct the important errors in your article of August 12, 1987 on our political party, the National Democratic Front. The NDF is not a splinter group of any organization including The Order. No leader of the NDF was ever a member of The Order or in any way connected with The Order. We have the utmost respect for the members of The Order as they gave their lives fighting for the survival and freedom of the White Race, but we do not advocate the violent overthrow of the Federal government. Instead, we will work our revolution through the political process, and we will overthrow this corrupt and decadent system just as our National Revolutionary forefathers overthrew the Articles of Confederation - through a Constitutional Convention.

We are White Nationalists - not white supremacists. We do not wish to exploit or have any contact with any other race. Our Program states quite clearly that "Under a National Democratic government each race will be granted its own completely independent nation on the soil of America, as every people should have the power of self-determination. Each such state will receive an amount of land in proportion to the size of its population." Like Black Nationalists, we wish to protect the racial and cultural purity of our people.

We are not "right-wing" in any sense of the word as we are as bitterly opposed to capitalism as we are to communism. Democratic Nationalism rejects the materialism of the left and the materialism of the right as we see man not as an economic being, but as a spiritual being who wants and needs to live for something greater than himself. Social justice is vital to nationalism and it will be achieved through a massive redistribution of the wealth and through the conversion of large companies to worker cooperatives.

A people stripped of its racial and cultural identity turns inevitably to individualism and its Self-Interest Ethic. But our people are growing sick of the decadence that surrounds them, and soon our National Ethic will replace this barren and corrupt philosophy.

Sincerely,
Gary Gallo
Director

Each unit leader of the NDF should send similar letters to the press when there are inaccuracies in an article about us. Who knows, we may even get a few of them published.

Reporters for small local newspapers tend to be younger and hence more idealistic than their older brethren who work for larger newspapers. They do not yet understand the corrupt nature of the System and will sometimes try to portray our views accurately, at least in the first article. Then they see the real face of the System and are brought back to reality. They are then either forced to write an unfavorable follow-up piece or they are taken off the case altogether. So we expect the next wave of articles in the **Montgomery Journal** and **Chronicle Express** to be very different from the first.

Reporters for large newspapers like the **Washington Post** are very different as they understand the politicized nature of the system within which they work, and they recognize that they rise according to their political acumen, and that this has nothing to do with reporting the truth. Therefore, we must treat large newspapers, where there is virtually no hope of honest coverage, differently from small newspapers, where there is at least some hope of fair treatment. For example, when the **Washington Post** requested an interview we replied with the following letter:

Dear Mr. Duggan:

Thank you for your interest in the NDF. Enclosed is material that will explain our organization.

We have decided not to grant your request for an interview at this time for the reason that most large newspaper reporters are professional liars in that they distort stories to please their bosses

Capitalists/ Conservatives . . .

Enemies Of White America

Commentary By John McFarlane

There are many within the racialist movement who, despite assurances to the contrary, do not believe that a White (let alone a Nationalist) victory is possible. There are those "within" racialist groups who do not even know what their position is as regarding a solution to multiracialism. Sure, we all want to save the White Race and we don't wan't to mix with coloreds etc., but how do we save our Race and save "the American way of life"?

As to saving our Race the answer to this is obvious, even if unacceptable to some "racialists". We must break up the United States and give each Race land in accordance with their numbers. There are already non-White groups demanding this and we must work with these groups if we are to avoid a racial bloodbath in America.

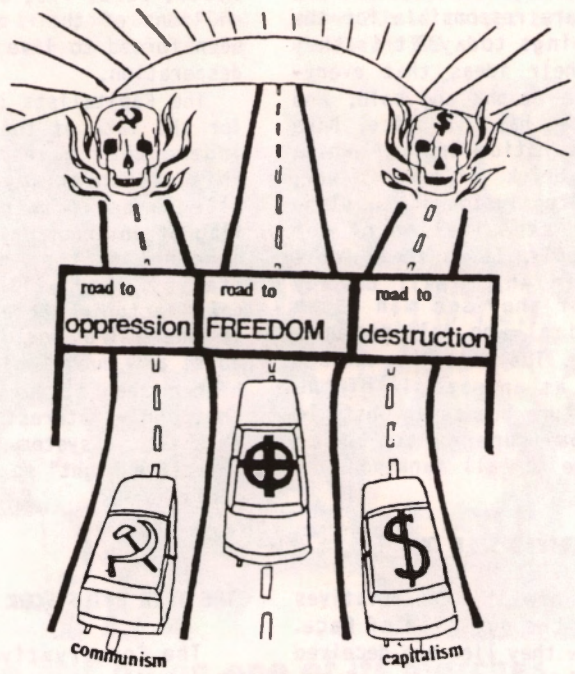
As to how we save "the American way of life" the answer to this is also quite simple, but less likely to appeal to any "Conservative Racialist" - **WE DO NOT.** We do not wish to "save" or "reform" the present system in any way. The "American way" has resulted in this land becoming a cesspool of corruption, greed, crime, drug abuse, and self-interest - a multiracial hate zone where people are simply bought and sold, a land where money is god.

We do not want a return to the "Good Ole Days " of segregation so that Blacks and Hispanics can be used for cheap labor to increase profits or to do the White man's dirty work. If our Race is to survive then we must have complete racial separation.

AN END TO EXPLOITATION

If we are to build a proud and noble future for our children then the idea that non-Whites can be used as labor fodder during the day, and yet be sent back to "their areas" at night must be purged from any genuine racialist organization. The time for Racial bigotry is over, the time for Racial reality has been forced upon us.

Not only must the idea that Blacks be used as cheap labor be eliminated, but more importantly, the idea that White people continue to live in a society in which White workers merely take the place of cheap Black labor must also be destroyed for this is a recipe for destruction. Any White society that sees its people as mere proles who, regardless of their Race, are there to be exploited for profit will have sown the divisive seeds of its own destruction.



NDF

The Way Forward!

The foundations of our White Nation will be built on the principles of National Freedom and Social Justice. For no people can feel part of a nation when they are being forced to compete with each other for jobs and housing. No people can feel as if they belong to their community, to their nation, if they are being forced to live in a Capitalist rat race where greed and self-interest come first and all that matters is whether the water in your swimming pool is at the correct temperature. Our people need to feel that they are at one with the nation - that they are part of our future. By giving them control of their workplaces and by

Conservatives Sold Out America

giving them real control of their governments both at local and national level our people can be forged together. There can be no compromise with the Conservatives and their allies, for these are the people who are responsible for the state of things today. It is they who with their ideas that everything can be bought and sold, and that everyone has his price, have brought this nation and our White Race to the brink of nuclear war, the chemical pollution of our planet, and the exploitation of our land and people. It is their Capitalist system which will destroy our Race for they see man as an economic animal who only produces and consumes. They see the variety of man not as an example of the beauty of nature but as an obstacle to the global supermarket which they envisage for all mankind.

THE CONSERVATIVES SOLD OUT

Remember how the Conservatives sold out on the question of Race. Remember how they lied and deceived to cover their surrender. Sure, they made noises aplenty, but at the end of the day they were and are just part of the System that was and is destroying the White Race. Their loyalty to their people was forgotten because in any Capitalist system the primary loyalty is to self.

We have a vision for our people and a future for them. We will destroy this nightmare society of greed and hate, and we will give our people a land where racial pride and social justice will replace the rat race that we have come to live in.

On the ruins of "Conservative America" will be built a White nation where poverty and hate will be replaced by social justice and love for our people, and where no man lives in conditions not fit for animals. Our people will not be exploited for material gain for it will be they who will own their workplaces and it will be they who work in them .

It is no wonder that some "racialists" do not believe that "we" can win. For they have not yet seen who or what the enemy really is! Indeed they may never see the enemy, for it is this enemy that has given them their swimming pools, cars, TVs, and VCRs while millions of their own people have been forced to live in poverty and desperation.

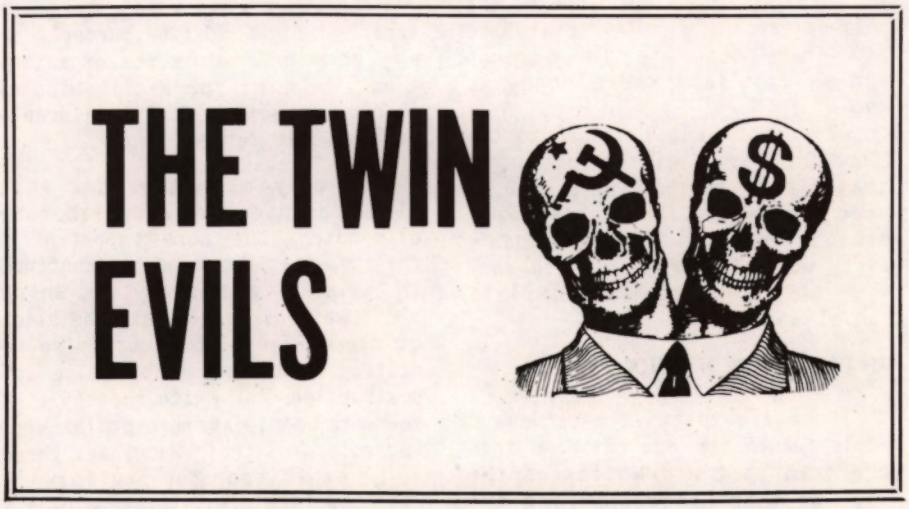
The Capitalists have no feeling for the fate of the White worker, indeed they have no feeling for this nation or any nation. Their allegiance is to money - to the flag of international finance. They care not if the American worker starves. They will quickly close down factories here and open them in the Third World where running costs are much smaller and profits higher when it suits them because their only interest is profit. Yet this is the system that the "Conservative Right" so fanaticlly supports.

THE TWIN EVILS WORK HAND IN HAND

The Conservatives are loud in their opposition to World Communism yet for years American banks have been quite happy to prop up unstable Communist governments with huge loans! Why is this? We are told that Capitalism and Communism are totally opposed to each other. Yet each supports the other, and without each other both would fall. Both Systems are violently opposed to Nationalism, both are internationalist, both are multiracialist, and in both systems the worker has virtually no control over his workplace. In both systems the worker has no say or interest in the profit of his labor. Yet we are led to believe that these systems are opposites.

It is only under Nationalism that people can identify with their race and feel that they are part of the nation. It is only with a Nationalist vision of Social Justice that people will feel secure in the knowledge that their labor is not being exploited by some faceless communist or capitalist bureaucrat. Under Democratic Nationalism it is they who are both owner and worker .

Each of us must educate ourselves in the workings of communism and capitalism so that we can come to understand the real enemy. Further, we must learn nationalist ideas, particularly the ideology of the Third Way that we call Democratic Nationalism here in America. For only through such study can we come to understand the NDF's world view and sincerely preach to the White American people a vision of a New America. **JM**



SNF Disbands - Top Leaders Join NDF

The Southern National Front held a leadership conference on August 22, 1987 at which it was decided that the organization should be disbanded so that its leaders and activists can be free to work for other racialist groups. The top leaders announced that they would join the National Democratic Front and work to build units for it in North Carolina and Virginia. Others chose to go with the Populist Party or the recently reconstituted White Patriot Party.

The top SNF leaders feel that the National Democratic Front is ideologically and organizationally the best White Nationalist force in the country and they are encouraging their followers to file membership applications with the NDF. But the NDF only wants those people who can do the following three things: 1) study and commit themselves whole-heartedly to the ideology of Democratic Nationalism, 2) maintain a high level of activity concentrating on the distribution of NDF propaganda, and 3) submit willingly to a revolutionary discipline in which they throw themselves completely into the execution of a decision made by the leadership even though may disagree with that particular course of action.

The NDF is a National Revolutionary Movement whose object is the fundamental transformation of the political and social order. Those who think that the plutocratic politicians are only misguided and that the System can be reformed are not welcome in the NDF. Moreover, ours is not a Movement for the faint-hearted. We demand much courage and sacrifice from our active members, and we get it. Those who are considering application to the NDF should think hard about these things before making a decision. **GG**

SHORT BURSTS

Zuckerman Pays No Tax

Mortimer B. Zuckerman, the Jewish multi-millionaire real estate magnate and owner of **U.S. News & World Report**, has paid no federal income tax since 1981. This information came out as a result of a lawsuit between Mortimer and the former owners of the **Atlantic Monthly** magazine which he purchased in an effort to extend his press empire.

Zuckerman's lawyers fought hard to exclude his tax returns as evidence in the case, but lost. They then issued a statement which explained the tax returns as reflecting "paper losses" from the depreciation and interest write-offs on real estate purchases.

It has long been plutocratic policy to subsidize large land purchases for the wealthy through such loopholes and tax breaks, and that is the main reason that real estate is now so expensive that the ordinary young family can no longer afford to purchase its own home. Real estate magnates such as Zuckerman have been payed by the federal government to bid up the price of land to a point where it is now out of reach of the people. This is what inevitably happens in government by the rich for the rich, and just as inevitably the rich will pay the ultimate price for their unrestrained greed. We will see to that.

McLouth May Become Worker-Owned

The management of the troubled McLouth Steel Products Corporation of Michigan is pressing ahead with plans to sell the firm to its employees under an Employee Stock Ownership Plan(ESOP) in spite of the resistance of the corporation's largest stockholder Cyrus Tang, who owns 65% of the shares. The company is nearly bankrupt, and it is hoping to emulate the turnaround of the Weirton Steel Corporation which is the largest worker-owned company in the U.S. Weirton has made a profit in each year since its conversion to an ESOP in 1984, and it has increased its workforce from 7000 to 8300 employees. The president of McLouth, David Clark, has said that he is "frustrated but not discouraged" by Tang's attitude and that he will work hard to restructure the company as worker-owned. We wish the employees of McLouth Steel all the best in this endeavor. Under the NDF rich stockholders will not be able to prevent the conversion of large companies to worker-owned Cooperatives.

Babies Know Beauty

According to an article in the May issue of Developmental Psychology infants as young as two months old can recognize a pretty face (as determined by a group of adults) and prefer it to an ugly one. The study conducted at the University of Texas at Austin is just another piece in the mass of scientific evidence that has been mounting to indicate that our attitudes and behavior are more the result of nature than nurture. Naturally, the evidence comes from side issues such as the studies of babies and twins, rather than on the study of races which is taboo in the land of the free and the home of the brave.

Rudolf Hess Dies at Age 93

Rudolf Hess, the Deputy Fuehrer of National Socialist Germany, died in Spandau Prison in West Berlin on the 17th of August, 1987 at the age of 93. The British claim that Hess commited suicide with an electrical cord that was not anchored at either end. Quite a feat for such an old and feeble man. Hess's family has expressed utter disbelief of the story.

Hess had been in an Allied prison of one sort or another since 1941 when he committed that dastardly act of attempting to commit peace. In 1941, he flew to Britain to try to convince the British that Germany had no quarrel with Britain and wanted to negotiate a peace. But peace was the last thing Churchill wanted and Hess was immediately incarcerated in total isolation so that no one could hear his words. And so he remained until death.

Rudolph Hess

In a bloodthirsty editorial the Jewish-owned **Washington Post** gloated over Hess's fate blaming him for the "Holocaust" which even Jewish historians say began in 1942, long after Hess's departure from Germany.

Several times Hess was offered his freedom if he would agree to renounce his past and denounce National Socialism. Each time he refused saying, "I regret nothing!" Can you imagine what Ronnie Reagan or Maggie Thatcher would have said were they in Hess's shoes? Who cannot respect such a man as Hess who did not break faith with his ideology even under the direst circumstances? Such is the power of nationalism.

LETTERS

Dear Gary,

Nationalist, Vol.3 No.6, is Dynamite! And the inserted leaflet with **WE WILL NOT BE CONQUERED! - WE WILL NOT BE DIVIDED** on one side and **White and Proud!** on the other side was great too.

Cordially,

Dear Friends,

Enclosed is my subscription renewal for another year of **The Nationalist** with the caliber and content of your publication and the veracity of your ideas. Please continue your efforts in behalf of our race.

In Unity,
David Canaday

Dear Gary,

Received your very nice copy of **The Nationalist** I am involved with David Duke's NAAWP and Field's **Thunderbolt**. If you and all the racially conscious people would unite into one, then we would not be so watered down.

Sincerely,
Paul Salvio
Bronx, New York

Editor - In regard to your point on the need to unite the various racialist factions, this is neither possible nor desirable. It is not possible for reasons both of personality and ideology. It is not desirable because a movement's success hinges on its ideological strength. Most American racialist organizations have no ideas and hence no ideological strength. Others support the Constitution and "Christian" principles without realizing that these ideas devolve inevitably into universalism, multiracialism, and capitalist exploitation of the lower classes by and for the rich elites.

We believe that their is only one system of ideas - one philosophy of life - that can surmount the odds and defeat the decadent but rich and powerful forces that oppose us, and that ideology is Democratic Nationalism. Those who do not support the NDF can only be of marginal value in the White Nationalist struggle. Those racialists who oppose us are worse than useless.

Revolutions are won by small groups who are united by common ideas. This is why the tiny Bolshevik faction of the Russian Social Democratic Labor Party was able to steal the Russian Revolution from the much larger, but more amorphous, Menshevik faction which initially seized power.

Dear Gary,

I now buy **The Nationalist** whenever possible from the National Front Book Shop. I find it most stimulating to know that there is a Third Way party in the U.S. as I find most parties in the U.S. are more interested in "nigger-baiting" then in proposing a real alternative to capitalism and communism. I do not like parties who advocate racial violence as this is only detrimental to both the racially aware white folk and the racially aware black folk....

I think that repatriation is better for Britain as it is a "white country", whereas the separate nations idea would be better for the U.S. as it is a "cosmopolitan" country where whites, blacks, asians, etc. are all immigrants.

I can only describe my horror at President Reagan's course of action in the Middle East. He seems to be trying his utmost to start World War Three. He is busy trying to spread his coca-kosher-cola policies worldwide.... I understand that one of your members [Matt Malone] made a speech at a recent NF meeting that went down extremely well with all present....

Also, I have seen some of your calling cards which are very good and any you could send me will be greatly appreciated, thanks.

Yours fraternally,

We do not know whether you are part of the rule or the exception and will not know until you have written about us. This is your first article about the NDF and we want to see how you handle it. If you are honest and fair then we will deal with you in the future. If you are not, then for all we care you can continue to write about cobras and other snakes as this is a most appropriate topic for the Washington Post. The NDF's Washington area activists are very pleased with the coverage that we have gotten, and it is impressive considering that we are such a young organization. The quality of our ideas, the powerful nature of our propaganda, and our determination to spread our message of spiritual and physical salvation is what separates us from the racialist organizations that have come and gone before us. Our exciting crusade is only just beginning. GG

INDIVIDUALITY OVER INDIVIDUALISM

The National Democratic Front will build a society which is based on individual service and sacrifice for the good of the whole. Does this mean that we want conformists who will give up their ability to think independently? **Hardly!** Unlike Capitalists and Communists who believe that all are the same, Nationalists recognize that Nature has endowed the races differently and has endowed each individual with his own special predispositions, talents and insights. We see this natural variety as a wonderful thing and are determined to structure our social order and our schools to develop this individuality for the benefit of our Race and Nation.

What we will not tolerate is individualism. This philosophy preaches that an individual's ultimate goal is to serve himself, not his people. The skills that the individualist wishes to develop are those of fraud, deceit and dissembling. We know these people very well. In the present corrupt System they are called leaders. Under the NDF they will be known by their serial numbers.

Our people want to be honest, and they want to develop their individual talents to help their people. Under the NDF they will be given the freedom and the help to do just that. Toleration of new ideas and the unusual characters who profess them is the key to the greatness of a White nation. Our Race has provided the world with more geniuses than any other from Aristotle and Plato, to DaVinci and Michaelangelo, to Edison and the Wright brothers. And this is because many Whites have the imagination and the strength to defy the conventional opinion.

Unlike the Chinese and Japanese who demand total submission to family or societal norms, and who feel that "The nail that sticks up must be hammered down", the White Race takes great pride in its mavericks because it is these men who are mostly responsible for our particular brand of progress. It is these men of genius that have made White civilization unique.

A Nation must support and encourage its children to develop their individuality as much as possible for individual genius is the greatest treasure of the nation. Individual freedom should only be limited when it is clear that a person is developing or practicing arts that can only serve himself or that will destroy the purity and unity of the nation. Under the NDF individuality will triumph over individualism.
